DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel non-elected claims 9-15 and 21-25.

This application is in condition for allowance except for the presence of claims 9-15 and 21-25 to inventions non-elected without traverse. Accordingly, claims 9-15 and 21-25 have been cancelled.

Allowable Subject Matter

Claims 1-3 and 5-8 are allowed.

The following is an examiner's statement of reasons for allowance:

There is no teaching or suggestion in the art of record disclosing a semiconductor device with a gate structure that includes a first gate electrode electrically connected to a second gate electrode through a third gate electrode in

combination with different impurity distributions of the first and second source/drain areas when viewed from the gate structure and further in combination with different insulating film thicknesses of the first and second gate electrodes. Therefore, independent claim 1 is deemed allowable along with its dependent claims 2-3 and 5-8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
